## The high quality **ultrasound alternative** to OEMs

Protect Your Image™; it's the foundation of success at Axess Ultrasound. The Axess Ultrasound team provides high quality ultrasound service, repair, training and parts to over 900 health care facilities worldwide. Pioneers in TEE probe repair since 2001, Specialized Technologies is now a division of Axess Ultrasound increasing our service as a one-stop solution for everything ultrasound.

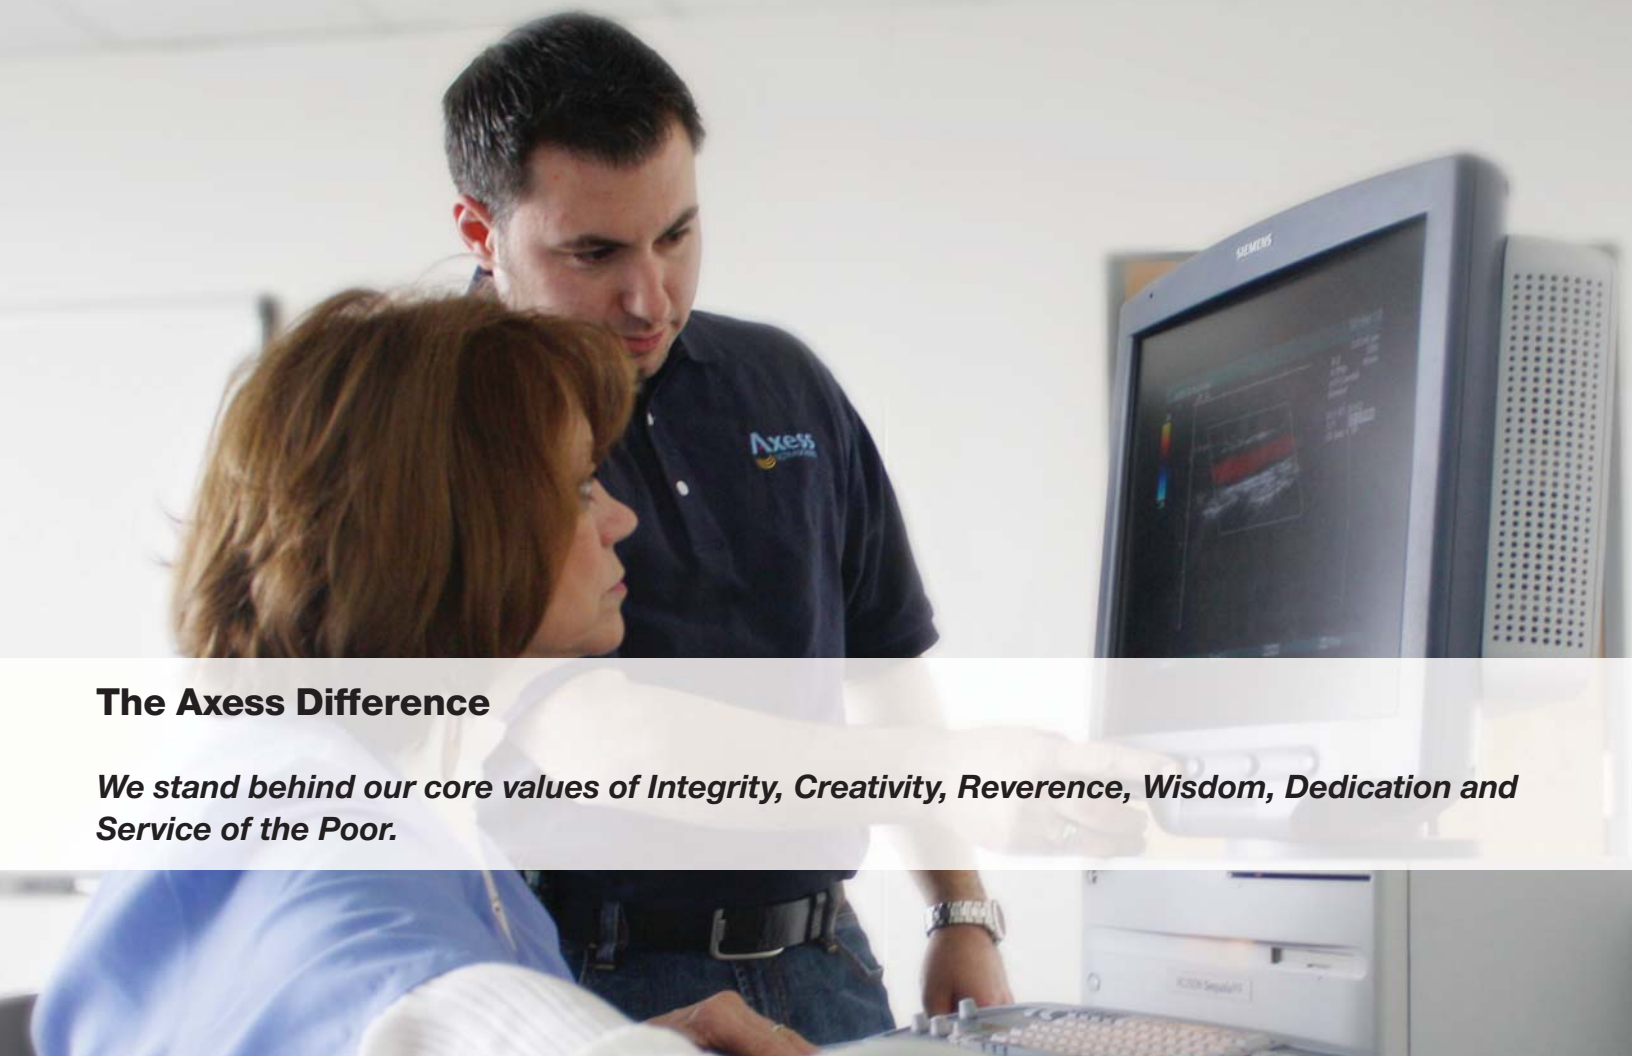

An Axess Ultrasound client can expect superior customer service that is unmatched by any ISO or OEM. Our highly trained technicians and sales staff walk you through every step of our ultrasound service, repair, purchase and training processes with no surprises along the way.

**Specialized Technologies**  
A Division of Axess Ultrasound

*Visit [www.axessultrasound.com](http://www.axessultrasound.com) or call 1-855-242-9377 for your one-stop ultrasound solution.*

## **The Axess Difference**

*We stand behind our core values of Integrity, Creativity, Reverence, Wisdom, Dedication and Service of the Poor.*

# Ultrasound Service and Repair

Axess Ultrasound is the high quality solution to the OEM; in fact we pride ourselves on having a broader range of ultrasound service and repair capabilities than any OEM.

Our expert staff knows that all repairs aren't created equal so we listen to your issues and provide quality turnkey solution for your ultrasound needs.

Our ultrasound service and repair capabilities qualify us to repair any ultrasound system including the following major manufactures:
